# G.E.V.

MICROGAME 8

# FAST AND DEADLY

In the year 2085, a tank duel lasts only seconds. An entire battle ends in minutes. Nuke-firing infantrymen dodge across the battleground in powered suits, trying to come to grips with the enemy armor. And those armor units, both tanks and hovercraft, are deadly. Only a direct hit will take one out — a miss may stun the crew, but their machine will keep trying to kill you.

**G.E.V.**, sequel to **OGRE**, adds more detail to Metagaming's fast-moving simulation of armored combat in the next century. **G.E.V.** is a new game - but it's wholly compatible with **OGRE**. Stacking and terrain rules, new unit types, the Mark IV Ogre, and more . . . Scenarios include **Raid**, **Breakthrough**, **Ceasefire Collapse**, and **The Train**. And within hours, you'll be inventing your own.

*G.E.V. includes a 24-page illustrated rulebook, 135 counters, and three-color 12" x 14" game map.*
